

Funded Postgraduate Courses 2021/22

Background

Airedale NHS Foundation Trust is committed to helping employees maximise their potential at work and create the best environment where teams and individuals excel in their roles.

We recognise the need for continuing professional and personal development, and strive to encourage all employees to actively participate in relevant education, training, learning and development activities that support a positive service-user experience and continuous service improvement.

All Health & Social Care Organisations in West Yorkshire contributed to the regional Learning Needs Analysis process for 2021. This helped us to understand our workforce education, training, learning and development needs. The information collected was aligned to the priorities of the NHS and the West Yorkshire and Harrogate Care Partnership helping us to produce the list of approved courses you find in this document.

HOW TO APPLY

1. Identify appropriate Course on lists below and follow hyperlink (highlighted in blue) to research further. Is it a good match to your skills and knowledge? Will it benefit your department/area of work?
2. Have a discussion with your line manager and gain their approval.
3. Complete application form from relevant University unless otherwise stated in the 'Notes' section below.
4. Contact jack.lewis3@nhs.net for completion of funding form or equivalent (generally available with application form, although the University administration team may email this to you).
5. Await outcome of application. *as many courses have limited places, you are not guaranteed a place. Please ensure you discuss your learning needs in PDR's as this is a longer term route to securing more access to learning opportunities.

Closing Date for Applications: No strict closing date
